

# Dr. Neil Salesky

Looking for a modern and safe dental office?  
Scared of going to the dentist?  
Want a nicer smile?  
Want to help animals?  
Want to schedule 24/7?

Named one of CT's Top Offices by CT Magazine

Southington Dentistry has been going above and beyond in the fight against COVID-19 with their recently installed air purification and aerosol reducing systems. These systems purify and re-energize the air at least six times an hour and remove 99.998 percent of particles at 0.1 microns, all to insure your health and safety. Call and schedule your appointment today! When you tell us you heard about us through Southington Magazine, at your scheduled visit, we will donate \$150 to a local animal rescue group.

Downtown Plantsville is home to Southington Dentistry and Dr. Neil Salesky and his staff. Dr. Salesky is a graduate of the University of Connecticut School of Dental Medicine and is trained in the latest dental techniques and technology, including cosmetic dentistry, one-vital root canals, adult braces and drillless dentistry in which many cavities are filled without an injection. Not only is he professionally trained he is, in fact, a dentist with quite a unique background.

His training allows him to perform surgical treatments and combine them with all aspects of restorative dentistry. Some of his many specialties include implant dentistry, sedation dentistry, periodontal treatment and cosmetic dentistry, allowing Dr. Salesky to treat complex situations with layers of solutions. He has earned Fellowship status at the International Congress of Oral Implantologists and is a Fellow of the Academy of General Dentistry (AGD), an honor that less

than 5 percent of general dentists achieve. Dr. Salesky understands providing great smiles and good oral health for his patients is the result of going above and beyond basic requirements. He has completed the Mastership Award, which is the highest AGD honor available and one of the most respected designations within the profession. To earn this award, Dr. Salesky has completed more than 1,100 hours of continuing education.

Dr. Salesky is also committed to helping others. In a rewarding experience several years ago, he spent a week in Guatemala with the Open Wide Dental Clinic. There he saw about 18 patients daily. He also brought home a dog that was abandoned after an earlier volcanic eruption. The dog was aptly named Lava.

Dr. Salesky is a family man. He married his high school sweetheart whom he's known for 27 years. Their 17 year marriage has brought them three daughters, who share the house with their three rescue dogs, the latest being Lava. He is dedicated to helping animals and donates 10 percent of his dental hygiene profits to local animal rescue groups.

In his spare time Dr. Salesky enjoys creating unique sculptures of chairs and tables with a welder and scrap metal.

It's a talent he's developed over 25 years and you can view some of his interesting works in his waiting room.

He and his wife Sharon are also avid adventure runners. They participate in 24 hour events running 50 miles carrying a 30 pound pack. These 'boot camp' style events are run by Special Forces veterans. Of course, this keeps you in shape, but Dr. Salesky says you learn that your body can do a lot more than you think it can.

What does the future hold for Southington Dentistry? Well, Dr. Salesky says he will carry on his volunteer work in other countries. His practice is growing. In fact, he is adding a new capable and modern dentist to the practice. He will continue to introduce cutting-edge technology and remain a student of dentistry.

Dr. Salesky would like to invite you to his office at 15 Cornerstone Court in Plantsville. There you will meet his caring and supportive staff. You can admire some of his creative sculptures and say hello to your new dentist.
